Subject: Microsoft Settlement

Hello,

My name is Justin Guerin, and I work at Atmel Corp. in Colorado Springs. I am a product engineer, and I work with computers a lot. I am very interested in the Microsoft trial, and feel compelled to comment on what I think is a bad idea: the proposed final judgment, in its current form.

The main point to remember is that Microsoft should not be allowed to retain the benefits of its illegal actions. Any settlement should also insure that Microsoft cannot continue to act illegally.

Thank you,
Justin Guerin
Product Engineer
Atmel Corp.
